

## TOLEDO ZOO, AFRICA! EXHIBIT - TOLEDO, OH

PRODUCT: WB 36

The Toledo Zoo, as the final part of their Zoo 2005: A Master Plan for the Toledo Zoo, will open their new Africa! exhibit on May 1, 2004. This 10 acre site will feature a "safari train" that will encircle the exhibit. In order to prevent long term conflict and damage from the bamboo that will grow along the train tracks, DeepRoot BambooBarrier WB 36 is installed to prevent rhizome penetration.

Installation of BambooBarrier™

Bamboo planted and getting ready for opening day!
