

WATER+AIR SYSTEM 02

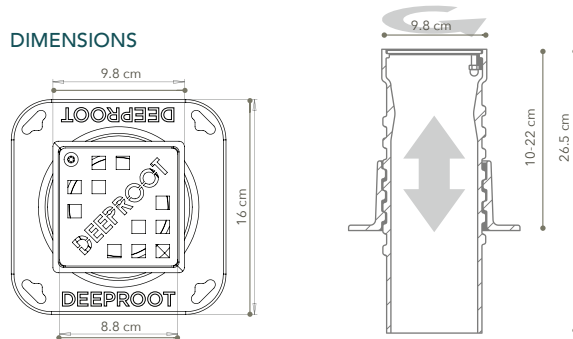

DeepRoot's Water+Air System enables water and air to be directly added to tree roots and the surrounding soil system. Used as a standalone system or in conjunction with the Silva Cell, the Water+Air System provides for complete irrigation and aeration needs for any urban tree planting.

APPLICATIONS

Root zone irrigation/aeration system (height adjustable) for easy and quick installation

DIMENSIONS

MATERIAL

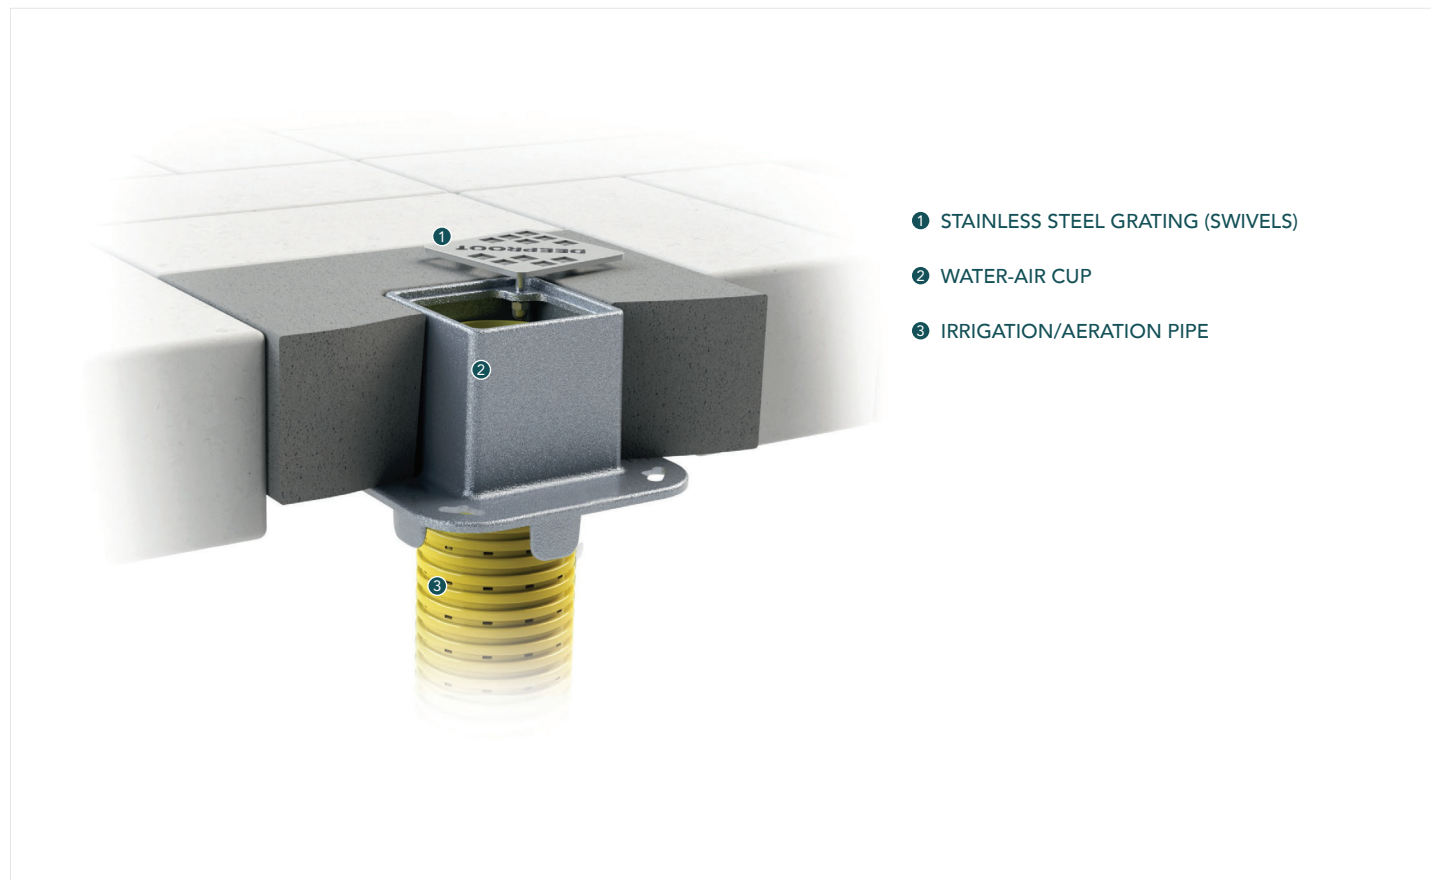

Cast aluminium body
Stainless steel grate

FEATURES

Adjustable Height
Durable stainless steel grate
Directs water and air to root system and surrounding soil
Deep root watering promotes water conservation
Adaptable to any soil volume requirements
