LEED Memorandum

Silva Cell & Marino Cell

This letter is to certify that the following product/material is being used on the above project and has the following characteristics:

Material/Product Name: Silva Cell & Marino Cell

DeepRoot strives to be environmentally conscious and sustainable when possible. For now, we have the following pre-consumer recycled content percentages for our base and posts in Silva Cell and all parts of the Marino Cell. We hope in the future to qualify for more LEED credits and other environmental due diligence certifications. If you need more assistance, please contact our director of operations.

This product has 0% post-consumer recycled content.

The following is a breakdown of our pre-consumer recycled content, adhering to the MR Credit 4 of the LEED Material Tracking.

Product Components

Component	Recycled Material %
SC Deck	0%
SC Base	100%
SC 2x Post	100%
SC 1x Post	100%
SC .5x Post	100%
MC10/20 – Frame	100%
MC10/20 – Deck	100%

Silva Cell Systems

System Height	Recycled Material %
.5x	49%
1x	55%
1.5x	64%
2x	66%
2.5x	71%
3x	73%
3.5x	76%
4x	77%

Manufacture Location:

Midland, ON L4R1Y9, Canada and/or Baldwin Park, CA 91706, United States

Thank you,
Rebecca Stevens
